

**EXPECTING THE UNEXPECTED**

**SAFEGUARD**

Since 1967, SAFEGUARD INVESTIGATION & SECURITY COMPANY, INC. (SISCO) has been earning the trust of its clients and the respect of the industry by providing unequalled security services. From homes, highrises, banks, malls, restaurants, schools, industrial and manufacturing plants, clients have entrusted their lives and livelihood to the SAFEGUARD name for more than three decades.

From its humble beginnings, SAFEGUARD has become a leader in the refined art of private security services. Three generations of the PADILLA family have given their best to weave the company into a progressive, customer-driven enterprise. It has been adjudged the "MOST OUTSTANDING SECURITY AGENCY OF THE YEAR" many times by the prestigious Consumers Union of the Philippines, a confirmation of its relentless pursuit to provide quality service to its clientele.

The company has always been a forerunner in its field of endeavor. In 1970, SAFEGUARD became the first security agency to install its own franchised VHF frequency and radio network, instantly connecting all its staff officers and mobile units to a central base. Moreover, its office is manned by a Staff Duty Officer 24 hours a day, everyday, to ensure that all field requirements and/or inquiries are attended to at the soonest possible time.

In 1975, the company established its Armor Services Division which in 1992 became an independent entity due to its significant growth. Since 1987, Safeguard has designed and manufactured its own state-of-the-art armored vehicles for better quality control and has been providing top quality armor services synonymous with the SAFEGUARD name. Today, SAFEGUARD ARMOR has grown to be one of the largest of its kind in the industry. And, it boasts of a reputation for honest and highly trained armor crew who have never been involved in any theft of clients' cargoes.

By 1980, SAFEGUARD opened its own Firearms Repair Facility to undertake the repair and maintenance of its weapons. Quality workmanship in repairs and renovations now serves even the repair requirements of other agencies.

The following year, SAFEGUARD TRAINING CENTER was established to hone

the company's security force in the high standards for which it is known. The Center provides training in the latest techniques and procedures in security protection, and was adjudged by the Security Agencies and Guards Supervision Division (SAGSD) of the Philippine National Police as one of the best training schools in the country.

As SAFEGUARD looks forward to its fourth decade and beyond, the company has made a commitment of transforming itself from a provider of top quality security services to a "provider of peace of mind" solutions.

In line with this new vision, SAFEGUARD has invested in top-of-the-line firearms, next-generation communication equipment, hired experts in different fields of security, trained its guards on first aid techniques and introduced new GPS-equipped armored vehicles.

We believe that security goes beyond protecting other people's lives and properties. Because at SAFEGUARD, *we just don't want you to feel secure, we want you to have peace of mind.*

# Experience, Size and Reliability = Peace of Mind.

Clients who entrust their lives and properties to SAFEGUARD include:

RESIDENTIAL CLIENTS

INDUSTRIAL CLIENTS

COMMERCIAL CLIENTS

SAFEGUARD utilizes a wide variety of vehicles to patrol clients's premises such as mobiles, motorcycles and bicycles.

SAFEGUARD is always ready for any eventuality.

- Firefighting and first aid equipment
- Each armor personnel is equipped with Level 4 body armor

Every armor crew is rigidly trained to ensure the safety of the client's cargo.

# SAFEGUARD

INVESTIGATION AND SECURITY CO., INC.

## VISION

To go beyond providing security services, our company will be the leader in providing integrated "peace of mind" solutions, and will be the agency of choice of quality-minded individuals and entities that consider experience, size and reliability as basic values needed to safeguard what are considered precious.

## MISSION

We want to be the premier name in the security business synonymous with trust and dependable quality. Our company shall continuously invest in personnel and equipment to ensure that we safeguard every customer's valuables as if they were our own.

We shall always stand our guard and remember our duty, unfazed by any adverse condition, so that others may sleep well, feel protected and continue to enjoy life, and at the end of each day, we shall aim to feel proud that we earned the trust of those whose lives and livelihood depend on us.

We shall always keep in mind the human side of our business by fostering a close family culture among stakeholders, customers, and the community to which we belong.
